#### DIPLOMA OF IT

Coder Academy

2023

#### AWS CERTIFIED CLOUD PRACTITIONER

Amazon Web Services

2023

#### BA CIVIL ENGINEERING (HONOURS)

RMIT University

2021

### PROFILE

A Civil Engineering Graduate and IT student with a passion for building things, seeking a transition into Web Development, ready to apply my engineering and problem-solving skills to this field and learn new technologies along the way. Skilled in Linux, GitHub, HTML/CSS, Python, PostgreSQL, and AWS. Demonstrated strong leadership and communication abilities through capstone projects and achieved exceptional results in engineering design and geotechnical research.

### KEY PROJECTS

#### PORTFOLIO

- A static website that tells a bit about myself.
- Technologies used: HTML/CSS, Linux, and GitHub

#### TERMINAL RESTAURENT APP

- A simple app that takes and stores food orders.
- Technologies used: Python, Linux, and GitHub

### EXPERIENCE

#### NDIS SUPPORT WORKER

A-Plus Care | 2022 - Present

- Support clients in engaging in social and recreational activities.
- Perform various tasks outside the home to assist clients.
- Provide valuable companionship and emotional support to individuals in need.

#### WATER JET OPERATOR

Elatli Glass | 2020 - 2022

- Operated water jet machinery to precisely cut various materials including glass and mirrors.
- Utilized AutoCAD to create accurate drawings and dimensions for glass, mirrors, and other materials, ensuring proper fitting and patching.
- Adhered to Australian architectural glass and hardware standards while managing risks and hazards associated with the job.
