A Civil Engineering Graduate with a passion for building things, seeking a transition into Software Development, ready to apply my engineering and problem-solving skills to this field and learn new technologies along the way.

EDUCATION & CERTIFICATIONS

2023
AWS CERTIFIED CLOUD PRACTIONER

2023 (EXPECTED TO FINISH FEBRUARY 2024)
DIPLOMA OF INFORMATION TECHNOLOGY, CODER ACADEMY

2021
BACHELOR OF CIVIL ENGINEERING (HONOURS), RMIT UNIVERSITY

2015
VCE, SIRIUS COLLEGE

WORK EXPERIENCE

2022 – NOW
NDIS SUPPORT WORKER, A-PLUS CARE

- Supporting client participation in social and recreational activities
- Providing companionship and emotional support
- Providing customer service to client and guardians

2020 – 2022
MACHINE OPERATOR, ELATLI GLASS

- Operating water jet to cut glass, mirrors, and other materials.
- Usage of AutoCAD to draw out glass, mirrors, and other materials into required dimensions/shapes and patch fittings.
- Following Australian architectural glass and hardware standards
- Managing risks and hazards.

SKILLS

- **Technologies: Python, SQL, AWS, HTML/CSS, Linux, GitHub.**
- Time-management skills developed by working multiple part-time jobs while engaging in full-time studies.
- Report writing and presentation skills developed through research assignments.
- Developed communication and leadership skills by taking leadership roles in capstone projects.

ACHIEVEMENTS & PROJECTS

- Portfolio website (mock) using HTML/CSS
- Terminal Restaurant Ordering System Application using Linux and Python
- Scoring distinction marks on major Final Engineering Project involving the design and structural analysis of a 6-storey building using AutoCAD and SpaceGASS as group leader.
- Scoring high distinction marks on final year Capstone Project involving the research and study of a geotechnical engineering topic as group leader.
